

National Conference on

“Feeding and Swallowing Therapy (FeaST)” 2024

Dates: 11-12 December 2024

Venue: Naimisham Campus, AIISH Manasagangotri, Mysuru

About the programme

The Centre for Swallowing Disorders at AIISH is joining hands with Society for Feeding and Swallowing Disorders (SFSD), India for organizing a National Conference on “Feeding and Swallowing Therapy (FeaST)” from 11-12 December 2024. The purpose of this conference is

- 1) To disseminate research
- 2) To bring the concerned professionals together to discuss and deliberate on the various management approaches.
- 3) To develop a strong professional community.

Why to attend

- In the recent past, the field of dysphagia rehabilitation has been on a boom. However, there are limited learning resources focused on treatment, management, and rehabilitation from a multidisciplinary team work.
- AIISH-FeaST offers session on Focused, Validated, Evidence-based approaches for management of pediatric and adult feeding and swallowing difficulties.

AIISH-FeaST also is a platform to disseminate your research findings through

- Paper presentation
- Poster presentations
- Expert guidance
- Professional network.

Highlight of the programme

One-to-one clinical mentorship program for budding clinicians in the field of pediatric and feeding disorders.

Who can attend

Budding speech-language pathologists aiming to work in a multidisciplinary set-up with good client load of population at risk for dysphagia.

For registration

Registration Fees

Professionals: ₹3500

Students: ₹2500

International participants: \$100

About AIISH

The All India Institute of Speech and Hearing (AIISH), is an autonomous institution established in the year 1966, fully funded and functioning under the Ministry of Health and Family Welfare, Government of India, has

been serving persons with communication disorders for the last six decades. The major objectives of the institute are to impart professional training, render clinical services, conduct research and educate the public on

issues related to communication disorders such as hearing impairment, balance issues, intellectual disability, learning disability, voice, fluency, phonological, language and swallowing disorders.

About Society for feeding and Swallowing Disorders (SFSD), India

We are a society 'of' and 'for' clinicians, academicians, and researchers interested in feeding and swallowing disorders across the lifespan and care continuum. We aim to facilitate and empower dysphagia specialists with quality education, training, resources, and support.
